WORK EXPERIENCE

Student Frontend Developer | Folkæt, Remote| *Sep 2026 – Present*
– Taking on frontend development tasks as part of a small team, contributing to UI features on an as-needed basis alongside my studies.

Programming Tutor | VIA University College, Horsens | *Sep 2026 – Present*
– Introducing first-year students to university life and supporting them with programming fundamentals during a weekly workshop.

Software Engineer Associate | Gruppo Euris Spa, Trieste, Italy | *Mar 2025 – Aug 2025*
– Developed and maintained web application pages in Angular with reusable components, and wrote and maintained unit and end-to-end test coverage for them.
– Built APIs and business logic in C# (.NET) with SQL databases. Used Git and Jira in an agile team, including regular code reviews.

ICT Technician | Insiel, Trieste, Italy | *Apr 2019 – Jun 2019*
– Troubleshooting and maintenance of enterprise systems. Configured new equipment. Small Java projects.

Rowing Coach | Circolo Marina Mercantile, Trieste, Italy | *2019 – 2021*
– Trained young athletes in competitive rowing and ran introductory courses for children and adults.

EDUCATION

Software Technology Engineering (Bachelor) | VIA University College, Horsens | *Sep 2025 – Present*

Full Stack Developer (.NET/Angular) | IRES & Gruppo Euris, Udine, Italy | *Oct 2024 – Jan 2025*
– 600-hour programme covering Angular, TypeScript, .NET, ASP.NET, and SQL. Included a 200-hour internship.

Computer Engineering | Università degli Studi di Trieste | *2021 – 2023*
– Completed approximately two-thirds of the curriculum before transferring to VIA University College.

Diploma in Computer Technology | Istituto Tecnico Statale Alessandro Volta, Trieste

PROJECTS

– Personal portfolio website – Rebuilt in React,(stokicmarko.github.io/CV-Portfolio) WIP.
– University Hackathon (VIA, Mar 2026) – Built a team project in React under time pressure.
– More on github.com/StokicMarko
